

Homework 4

Compose a paragraph each for **two** proposed final ECE 5725 projects. Each project proposal should include

- At least one paragraph of text outlining the project ideas. Please provide enough detail to clearly explain your project idea.
- At least one figure outlining the project and system you propose.

Projects must include the Raspberry Pi as a central component of the embedded solutions you propose. Project proposals will be evaluated in lab section beginning the week of November 11, 2019 (Project week 1). Optionally, you may discuss project ideas with the course staff any time prior to the lab sessions of Project week 1.
